1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by JP (10-027460).

JP ('460) discloses an image recording and/or reproducing device having a main base 7 including a hole (see figures) therein; and a cable FC which passes through the hole and is connected to a sub printed circuit board 3 of a capstan motor by solder 10, all as set forth in claim 1.

JP ('460) also discloses a capstan motor unit for use in a video tape recorder having a sub printed circuit board 3 of a capstan motor; and a cable FC connected to the sub PCB by soldering 10, all as recited in claim 4.

3. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by EP (0967-595 B1).

EP ('595) discloses an image recording and/or reproducing device having an outer case 10 including a protruding portion forming a recess (figures 2 and 4) in the outer case which is adapted to receive a portion of a capstan motor 200 of the VCR, all as set forth in claim 3.

4. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 5-12 are allowed.
